

Reichmann Casting Finishing

## Reichmann presents efficient machine concepts for automatic fettling at Ankiros in Istanbul

**From October 25 to 27, Reichmann Casting Finishing will again take part at ANKIROS in Istanbul as an exhibitor. Together with the Turkish representative EXPERT, Reichmann will be presenting powerful machine concepts for automatic surface grinding, round parts grinding and abrasive cutting, which will considerably increase the productivity of foundries.**

The Ankiros in Istanbul offers trade visitors an excellent platform to get acquainted with the latest developments and innovations in the foundry, steel and metal industries. Reichmann Casting Finishing uses this opportunity to introduce trade visitors in a personal conversation to machine solutions for further increasing the efficiency and humanizing of foundry workplaces. We cordially invite all customers and interested parties, to visit our booth **H2-B110** from 25.10. until 27.10.18!

### **World market leader in automatic casting finishing**

The company Reichmann & Sohn is celebrating its 100th anniversary this year. For the medium-sized family business from southern Germany, the last year was also the most successful in the one hundred-year company history. Reichmann Casting Finishing is a worldwide leading supplier of machines for casting finishing and fettling technology. The name "Reichmann" is known for its sturdy machine construction "Made in Germany", a long service life and reliable high availability.
