

FEEDBACK

„A super organized workshop.
We are well prepared and
motivated for the coming
season!“
Omnia Sports (2021)

„Informative & practical, good
range of topics, excellent
communication.“
Intersport Krämer (2022)

„All questions were answered
very well and I picked up lots
of new tips and tricks.“
Skiverleih Olga (2020)

„I didn't expect to go home
with so much knowledge, both
in theory and practice. Great,
thank you!“
Sport Wagner (2021)

„Small groups, intensive
exchange with professionals
and colleagues - the
Reichmann workshops are
always worthwhile!“
Sportshop München (2015)

- ▶ Practical solutions for everyday skiservice

 **THURSDAY, OCTOBER 22, 2026**

TECHNICAL WORKSHOP

NEW IN 2026 !

Practical Tool Changes and Machine Maintenance

Learn professional tool-changing procedures and essential maintenance tasks directly on our machines.

Three Practical Training Stations

1. Changing grinding belts and diamonds on the Profi 4 and Slope Master
2. Changing and handling tuning and disc wheels on the DTS-U II, SF-4 and Slope Master
3. Maintenance tasks such as lubrication, preservation and machine care

Workshop format

- Small groups with a strong hands-on focus
- Direct application on the machine
- Rotation through all training stations

Your benefits:

- ▶ Become an expert on your machine
- ▶ Reduce service calls, downtime, and costs
- ▶ Achieve consistently perfect grinding results with optimally maintained machines
- ▶ Extend the service life and preserve the value of your machine

The workshops can be booked individually or in combination. For participants with prior experience, we recommend combining a thematic workshop with a technical workshop.
