

DATA SHEET USED MACHINE

(Original photo used machine)

Machine features:

- This machine has been used for display or demonstration purposes only; In near-new condition
- Drive motors tested mechanically and electrically; insulation test performed
- Pneumatic and control systems fully functional

Condition of tools:

Tuning disc like new

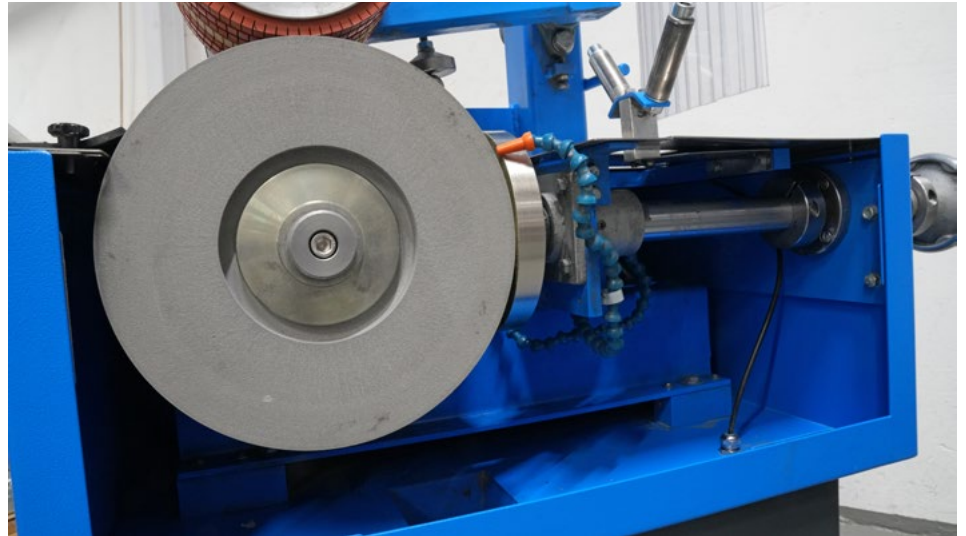

EDGE FINISHING MACHINE KFM-U

The KFM-U edge finishing machine ensures that the mirror finish on the base edge maintains edge sharpness for longer, giving skis improved turning performance and increased grip. The circumferential polishing discs tune the base edges without rounding them off or creating unwanted cross-scratches. This allows both base edges to be polished and dressed in a single pass. Thanks to the automatic feed and the mechanical lifting device, the KFM-U achieves consistent tuning results.

MACHINE TYPE:	KFM-U
G-NUMBER:	G1011051
CONSTRUCTION YEAR:	2025
CONDITION:	PRESENTATION MACHINE

PRICE AND AVAILABILITY UPON REQUEST.

TECHNICAL DATA

Dimensions (L x W x H) in mm	850 x 670 x 1320
Connecting voltage	400 V, 3PH/N/PE, 50 Hz
Weight in kg	280
Connecting plug	CEE 16A 5-pol.
Feed speed 1/min	910
Connecting power in kW	2,01
Coolant tank ca. in l	30
Tuning disc base edge in mm	Ø 300 x 170
