

DATA SHEET

Equipment:

- Perforated steel back panel
- Beech plywood countertop
- 4 lockable drawers on the left
- Lockable cabinet compartment on the right with an adjustable shelf

Workbench

The workbench was designed for ski and snowboard service centers as well as a wide range of workshops, offering long-lasting comfort, functionality, and durability. The tabletop is made of heavy-duty beech plywood, and its edges are reinforced with steel angle brackets, which increase resistance to mechanical damage. The back panel, made of perforated steel sheet, allows for the attachment of hooks, brackets, and shelves.

TYPE:	WORKBENCH
G-NUMBER:	1085488
